

*Betiana Hurtado is a highly respected photographer who has amassed over 15 years of experience in the industry. Originally from Buenos Aires, Argentina, she discovered her passion for photography at a young age and was inspired by her uncle, a professional photographer. With a natural talent for capturing beautiful moments through the lens of a camera, Betiana decided to pursue formal education in photography in New York. After completing her education, Betiana began her career as a wedding photographer, capturing the special moments of couple's big days. Her ability to capture the essence of these moments quickly gained recognition, and she soon began to expand her work to include editorial photography. Betiana has worked for magazines in Argentina, where she photographed portraits of musicians and artists, and has now expanded her work to include commissions in the USA, Argentina, Italy and Spain.*

Our typical wedding photography coverage begins with capturing the preparation moments in the morning and extends to the end of the wedding reception, which is usually around 9-10 hours. However, we understand that every wedding is unique, and we are always open to tailoring our services to match your individual needs. You can contact us to inquire about our pricing options and to request a Brochure. Given that dates for our photography services are often booked months in advance, it is recommended to reach out as early as possible. We would be happy to schedule a pre-wedding meeting to get to know you and discuss the specifics of your wedding.
